POLICEMEN SAVAGELY ASSAULTED BY NEGRO Roughs.-About 8 o'clock last night, Officer McDonald, accompanied by Station-keeper Wilson, of the 6th precinct, noticed a crowd of colored roughs at 2d street and New York avenue, and they were ordered off by the officer. They then passed over the avenue, when one of them picked up a stone, and saying "Knock the of -- in the head," threw it, and was followed by others. The officer then took one of them in custody and turned him over to Mr. Wilson, and using his club attempted to keep the crowd back. The prisoner attempted to get Mr. Wil-son down, but he held on to him, but finally he got away and the crowd made good their escape. The officer had his head cut, received a severe kick in the stomach, and was otherwise bruised. Mr. Wilson had a finger broken, was cut in the head, and was struck three times in the back. CONTRACT AWARDED. The contract for constructing the south wing of the Washington workhouse was on Saturday awarded to Mr. Z. Downing at \$9,941.86. It will be recollected that the appropriation for this building was \$19,000; and the bids opened last week for this work all were above the sum appropriated. The Commissioners thereupon di-rected Mr. Entwisie to go over the plans and specifications and make such modifications as would bring the cost within the sum appropriated and give the contract to the lowest bidder, which has been done. MASSACHUSETTS AVENUE.

A delegation of property holders on Massa-chusetts avenue, between 7th street and New Jersey avenue, about a dozen in number, waited on the District Commissioners this morning to urge the improvement of Massachusetts ave nue, between the points named. These gentlemen have several times before been before the Commissioners on this same errand, and have presented strong arguments why this improvement should be done. The Commissioners have always assured them of their willingness and desire to comply with the wishes of the taxpayers and residents, but state that their hands are tied, having no means to do any repaving this year except where it is necessary to make connections of paved streets, and then only where the distance is short. All the money appropri-ated by Congress for the streets is about \$75,000 after paying the allotment for the public schools, and most of this amount will be needed for resurfacing and repairs. The avenue in question is among the streets in the estimates of the Commissioners this year, but the appropriation was not sufficient for this work.

DEATH OF CAROLINE HITE WALKER .- In an other column appears the announcement of the death of Mrs. Caroline Hite Walker, one of our oldest and most esteemed residents. Mrs. Wal ker and her younger sisters, Mrs. Joseph Gales and Mrs. George W. May, whom she survived. were the daughters of Mr. Theodoric Lee, of Virginia. These ladies were all noted for a high order of intelligence, and for unusual energy and fortitude of character, and equally eminent for Christian virtues, which won for them the reverence of the good and the blessings of the poor. Remarkable for personal beauty and refinement, to a dignified urbanity characteristic of a former generation, they united a winning grace which especially attracted the young. They all lived to an age far exceeding the Psalmist's limit of three score years and ten; in each instance a "green old age" of unimpaired faculties and a cheerfulness of spirit as beautiful as rare. Mrs. Walker was the mother of thirteen children, of whom only three daughters survive to mourn her loss.

THE W. & G. R. R. AND THE PENNSYLVANIA AVENUE PAVEMENT.-Judge Wylie to-day de livered the opinion of the court in the case of the Washington and Georgetown Railroad company against the District of Columbia. This suit arose out of the paving of Pennsylvania avenue under Gens. Wright and Glimore and Architect Clarke, who reported that a certain amount was due by the railroad company. The Commissioners of the District decided to revise the assessment, and that the railroad company was chargable for the blue stone as well as the pavement two feet beyond the outer edge of the rails. The railroal company contended that they were chargable only for their ratable portion (over \$12,000) and not the expense of the blue store, which would foot up \$19,000, and filed an application for an injunction, which was granted below. This court held that the deision below was erroneous; that there was no limitation as to the work in the center of the street. They therefore reversed the judgment below and dismissed the bill.

THE INTELLIGENCER BUILDING CASE. - In the Court in General Term this morning Judge Hagner delivered the opinion of the court in the case of Coyle agt. Davis. This was a bill filed in 1869 for an account and conveyance, plaintiff claiming that an assignment of his third interest in the Intelligencer building was not a deed but a mortgage, and therefore he had a right to have an account stated. Various proceedings were had until 1872, when the case was allowed to slumber till 1878, and was finally certified to this court. The court this morning directed a decree for the defendant, and complainant took an appeal.
